Afaan Oromo
English

ABOUT ME

Software Engineering student and full stack developer with experience building AI-powered learning platforms, startup ecosystem solutions, and modern web applications. Skilled in React, Node.js, Express, FastAPI, PostgreSQL, and full stack development workflows. Passionate about building scalable digital solutions and collaborating in innovative development environments.

WORK EXPERIENCE

Ministry of Innovation and Technology (MINT) Feb 2026-Ended Software Engineer

- Contributing to the development of a startup-investor matching platform
- Collaborating with multidisciplinary teams in an innovation-focused environment
- Participating in backend system planning and platform architecture discussions
- Supporting scalable platform development for startup ecosystem solutions

Innobiz-K Ethiopia (Ink) 2026-Ended Full Stack Developer

- Contributing to the redesign and development of the organization's website
- Collaborating with team members on frontend and backend integration
- Improving user experience and responsive web design
- Participating in implementation of modern web technologies and scalable features

Fluentian March 2026-Ended Backend Developer

- Built authentication systems using FastAPI and JWT authentication
- Contributed to development of an AI-powered learning platform
- Designed and tested backend APIs for scalable application workflows
- Worked with database integration and backend security practices
